PROFESSIONAL SUMMARY

Full Stack MERN Developer proven experience at EventsBride building scalable web applications using React.js, Node.js,, Express, and MongoDB. Skilled in REST API development, performance optimization, and responsive UI design.

SKILLS

- **Programming Languages |** C, Python, Java, JavaScript
- **Backend |** Node.js, Express.js, REST API Development
- **Frontend |** HTML5, CSS3, React.js, Redux, Tailwind, CSS, Bootstrap, Material UI
- **Databases |** MongoDB, MySQL, Redis
- **DevOps |** Vercel, Render, Git, GitHub
- **Soft Skills |** Communication, Problem Solving, Team Collaboration

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | EventsBridge May 2025 - Present
Odissa, India

- Led a team of **5 developers**, managing code integration, resolving merge conflicts, and maintaining production repositories.
- Developed an **Admin Booking Dashboard** using React Query with real-time updates, event categorization, and booking approval workflows.
- Implemented **OTP-based authentication** and built secure backend APIs handling sensitive financial data (bank accounts and UPI details).
- Optimized performance through **database query optimization and caching**, improving Core Web Vitals (LCP ↓37%, FCP ↓43%, CLS ↓68%).
- Improved **mobile traffic by 30%** and reduced **bounce rate by 20%** through responsive design enhancements.

PROJECTS

AI Interview Taker – AI-Powered Interview Practice Platform | GitHub
React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Gemini AI, JWT, Render
AI-based platform simulates real technical interviews by generating dynamic questions and analyzing candidate responses.

- Built a full-stack MERN application integrating **Gemini AI from Google** to simulate technical interviews with **AI-generated questions,** JWT authentication, and role-based sessions.
- Implemented **AI-driven response** analysis for **performance, progress tracking, and weak-area detection**, with a React + Tailwind CSS frontend, deployed as a single service on Render using Express.js to serve both frontend and backend.

CartWish – E-Commerce Platform | GitHub

- Built a full-stack MERN e-commerce application for browsing and purchasing iPhone products featuring authentication & authorization, dynamic product catalog, infinite scroll using **React Query,** optimized API data fetching and **caching**, and add-to-cart functionality.

CERTIFICATION & ACHIEVEMENTS

- **Built and deployed AI-powered applications using Google AI Studio** with training in prompt engineering, AI application design, and cloud-based deployment workflows.
- **Udemy Certified React Developer -** Built three real-world React applications focusing on modern React development and responsive UI design.
- **Full Stack Web Development (MERN Stack) – Apna College:** Developed full stack web applications using MongoDB, Express.js, React.js, and Node.js.
- **GATE 2025 – Qualified:** Demonstrated strong knowledge of computer science fundamentals and problem-solving.

POSITION OF RESPONSIBILITY

Google developer groups | Core Member (DSA/CP) - Collaborated on community events and organized workshops to promote tech awareness at BN College Of Engineering And Technology.

EDUCATION

- **B.Tech in Computer Science** **(2021 - 2025)**
  BN College of Engineering and Technology, Lucknow Percentage : 73.21%(CGPA: 7.82)
- **Senior Secondary (12th), ICSE – 2020**
  St. Antony's Inter College, Lucknow Percentage: 83.25%
